PART 1 – ANNUAL BUDGET

Mayor's Report

The new budget cycle for Matjhabeng Local Municipality starts in the 1st of July of each year, and ends at 30th June the following year.

According to section 24(1) of the Municipal Finance Management Act, a municipal council must at least 30 days before the start of the new financial year, consider approval of the annual budget.

The Matjhabeng Annual Budget includes an Operational Budget that provides for the annual expenditure and revenue estimates for 2015/16, as well as a Capital Budget that provides for the on-going investment in infrastructure necessary to provide services to the community.

The Matjhabeng Annual Budget for the 2015/16 financial year is R 2 069 171 246. The proposed pay rate is based at 80%, which was informed by past collection trends. The proposed income to be collected from the budgeted income is R 1 788 147 286 based on the aforementioned pay rate of 80%. The municipality also made provision for bad debts of R 87 982 527, revenue foregone of R 32 850 000 and depreciation of R 192 680 410 for the financial year 2015/16.

The Operational budget has been divided into revenue and expenditure sections. The revenue section consists of property rates, electricity, water, sanitation; refuse removal, grants and subsidies, interest and investment income and other revenue. The expenditure section includes items such as personnel costs, general expenditure, repairs & maintenance, capital charges, contribution to reserves and contribution to capital.

Due to the present high unit price of water and the present difficult economical situation, there will be a 4% water increase in the water tariffs for the 2015/16 financial year. The bulk service provider, Sedibeng Water will increase its tariffs with 8.3%. The average electricity tariff will increase with 12.20% as per the approved NERSA guideline. The bulk electricity service provider, Eskom will increase its tariff with 14.24%. The refuse tariff will increase with 4.80%, this tariff increase will assist with the repair and maintenance of the municipality's infrastructure. The sewerage tariff will increase with 4.80%.

The assessment rates will increase from R 180 514 208 to R 189 178 890 and revenue foregone of R 32 850 000. The anticipated pay rate for assessment rates will be 90%. The new valuation roll will be implemented during the 2015/16 financial year.

The factors which have been considered in the increases include the following:

- ✚ CPIX of 4.80% (MFMA Circular 75 – Budget Review 2015)
- ✚ Increase in Sedibeng Water tariff 8.3%
- ✚ Eskom tariff approximately 14.24% and Nersa approved a tariff increase of 12.20%
- ✚ Salary increase approximately 7%

The Capital budget for the 2015/16 financial year is R 146 451 000. The sources of funds for the capital budget are as follow:

Integrated National Electrification Grant	R 1 800 000
Municipal Infrastructure Grant	R 114 651 000
Internally Generated Funds	R 30 000 000

Council Resolutions

The Municipal Finance Management Act requires that the municipality table and adopt the budget and budget regulations. The format of the budget and supporting documentation is prescribed by the Municipal Budget and Reporting Regulations.

The Matjhabeng Local Municipality's Council adopted the Municipal Budget at its council meeting on 27 May 2015.

Executive Summary

The Matjhabeng Local Municipality Annual Budget for the 2015/16 financial year is compiled in accordance with the prescripts of the Municipal Finance Management Act 56 of 2003, Municipal Budget and Reporting Regulations and National Treasury's MFMA Circulars.

The municipality did a review of the service delivery priorities as part of this year's planning and budget process, therefore the development of the Annual Budget 2015/16 was informed by the key service delivery priorities. A review of expenditure was also undertaken so to eliminate spending on non-core activities and to comply with the payment arrangements entered into with Sedibeng Water and Eskom.

The main challenges experienced during the compilation of the 2015/16 MTREF can be summarised as follows:

- The ongoing difficulties in the national and local economy;
- Aging and poorly maintained water, roads and electricity infrastructure;
- The need to reprioritise projects and expenditure within the existing resource envelope given the cash flow realities and declining cash position of the municipality;
- The increased cost of bulk water and electricity (due to tariff increases from Sedibeng Water and Eskom), which is placing upward pressure on service tariffs to residents. Continuous high tariff increases are not sustainable - as there will be point where services will no-longer be affordable;
- The facilities of the municipality is not properly maintained due to the low revenue collected on the rental of these facilities this can largely be attributed to the tariffs not being cost reflective.
- Wage increases for municipal staff that continue to exceed consumer inflation, as well as the need to fill critical vacancies;
- Affordability of capital projects – original allocations had to be reduced and the operational expenditure associated with prior year's capital investments needed to be factored into the budget as part of the 2014/15 MTREF process; and

- Availability of affordable capital/borrowing.

The Operational grant allocation (equitable share, finance management grant and municipal systems improvement grant) for the 2015/16 financial year is R 406 586 000, this is a decrease compared to the R 417 931 000 allocation for the 2014/15 financial year.

In view of the aforementioned, the following table represents a consolidated overview of the proposed 2015/16 Medium-term Revenue and Expenditure Framework:

Table 1

	Adjustments Budget 2014/15	Budget 2015/16	Budget 2016/17	Budget 2017/18
	R'000	R'000	R'000	R'000
Total Operating Revenue	R 1 763 825	R 1 952 721	R 2 071 385	R 2 148 849
Total Operating Expenditure	R 1 975 148	R 1 922 358	R 1 997 927	R 2 052 296
Surplus /(Deficit)	(R 211 322)	R 30 362	R 73 458	R 96 553
Total Capital Expenditure	R 176 246	R 146 451	R 121 183	R 129 476

Total operating revenue has grown by 9.67% for the 2015/16 financial year when compared to the 2014/15 Adjustments Budget. For the two outer years, operational revenue will increase by 6% and 5% respectively, equating to a total revenue growth of 10% over the MTREF.

Total operating expenditure for the 2015/16 financial year has been appropriated at R 1 922 billion and translates into a budgeted surplus of R 30 362 million. The operating surpluses will be used to fund capital expenditure and to further ensure cash backing of reserves and funds should the municipality receive all monies budgeted for.

The total capital expenditure decreased from R 176 million to R 146 million for the 2015/16 financial year when compared to the 2014/15 Adjustments Budget. For the two outer years expenditure will decrease to a further R 121 million and a slight increase in the 2017/18 financial year to R 129 million.

Operating Revenue Framework

For the municipality to achieve its set targets in terms of service delivery it needs to generate sufficient revenue. Financial state of affairs of the municipality need difficult decisions to be made in terms of tariff increases and balancing expenditure against planned realistic revenues. Efficient and effective revenue management is thus crucial.

The municipality's revenue strategy is built around the following key components:

- National Treasury's guidelines and macroeconomic policy;
- Growth in the City and continued economic development;
- Efficient revenue management, which aims to ensure a 90 per cent annual collection rate for property rates and 80 per cent for other key service charges;
- Electricity tariff increases as approved by the National Electricity Regulator of South Africa (NERSA);
- Achievement of full cost recovery of specific user charges especially in relation to trading services;
- Determining the tariff escalation rate by establishing/calculating the revenue requirement of each service;
- The municipality's Property Rates Policy approved in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA);
- Increase ability to extend new services and recover costs;
- The municipality's Indigent Policy and rendering of free basic services; and
- Tariff policies of Matjhabeng Local Municipality.

Revenue Raising Strategy

- ✦ Implementation of the Revenue Enhancement Strategy by increasing the revenue base of the municipality.
- ✦ Rejuvenate disconnection project (Operation Betaal) with a revenue protection unit in place to monitor reconnections and disconnections.
- ✦ Review budget related policies
- ✦ Implementation of the Valuation Roll
- ✦ Review the tariffs for services rendered to ensure that tariffs are cost reflective.
- ✦ Implementation of the cost containment measures (MFMA circular 70)

The following table is a summary of the 2015/16 MTREF (classified by main revenue source):

Table 2**FS184 Matjhabeng - Table A4 Budgeted Financial Performance (revenue and expenditure)**

Table 2 (Table A4 Budgeted Financial Performance – revenue and expenditure) reflects the operating statement which excludes the capital transfers and contributions which is in line with the Municipal Budget and Reporting Regulations. The inclusion of these revenue sources will distort the calculation of the operating surplus/(deficit).

The main sources of revenue are property rates, service charges and transfers recognized as operational.

Property Rates

Property Rates increased from R 180 million in the 2014/15 financial year to R 189 million in the 2015/16 financial year. An amount of R 32 million is budgeted for revenue foregone. Revenue foregone can be defined as any income that the municipality is entitled to by law to levy, but which has subsequently foregone by way of rebate. The total amount inclusive of revenue foregone is therefore R 222 million. This growth can be attributed to the implementation of the new valuation roll in the 2015/16 financial year. The last valuation roll came into effect on 1 July 2011, and is based on market-related values. The revenue for the outer years will be R 235 million and R 248 million respectively. The collection rate on property rates is set at 90%, this target was set based on the development of the financial recovery plan and the revenue enhancement strategy. The municipality also reviewed its budget related policies to ensure optimal collection of revenue due to the municipality. The municipality also envisages disposing of land for the purposes of development which will in turn result in property rates levied against the developments.

Service charges

The service charges increased from R 1 041 billion in the 2014/15 adjustment budget to R 1 138 billion in the 2015/16 financial year. The growth in service charges can be attributed to the tariff increases. Electricity revenue is increased with 12.20% which is in line with the approved Nersa guideline. Water revenue is increased from R 196 million in the 2014/15 adjusted budget to R 203 million in the 2015/16

financial year, which represents a tariff increase of 4%. Sanitation and Refuse service charges increased with 4.8%, this increase is in line with the CPIX as prescribed in MFMA Circular 75.

Operational Transfers and Grant receipts

Transfers recognized as operational receipts is the second largest revenue source totaling 21% or R 406 586 million and decreased from R 417 million. The Equitable share allocation is a grant which supplement the municipality's own revenue for the provision of the necessary basic level of services to each poor household within their jurisdiction. The annual DORA publishes the equitable share allocation.

The following table 3 gives a breakdown of the various operating grants and subsidies allocated to the municipality of the medium-term:

Table 3 – Operating transfers and grant receipts

FS184 Matjhabeng - Supporting Table SA18 Transfers and grant receipts

Proposed Tariff Increases

Tariff setting is a pivotal and strategic part of the compilation of the budget. During the revision of the tariffs the local economic conditions, input costs, the macro-economic forecasts as prescribed by MFMA circulars and the affordability of services were taken into account to ensure financial sustainability. The municipality also participated in a tariff setting workshop which was presented by the National and Provincial Treasury.

The table below provides information on the proposed tariff increases for the service charges. The average tariff increase for rates will be 4.80%. The estimated tariff increase for water will be 4% and electricity will be 12.20% as per the NERSA guideline. The tariff increases for sewerage and refuse will be at 4.8% which is in line with the CPIX.

Tariff increases – Revenue 2015/16

Revenue category	Budget 2014/15 R	Average tariff increases	2015/16 budgeted revenue
Rates	180 514 208	4.8%	189 178 890
Water	196 047 370	4%	203 889 265
Electricity	664 906 014	12.20%	746 024 548
Sewerage	115 345 783	4.8%	120 882 381
Refuse	64 911 556	4.8%	68 027 311

The general tariffs will be increased with 6.5%.

The municipality started implementing the winter and summer tariffs for electricity in the 2014/15 financial year. A comprehensive tariff study was performed on the electricity tariff to ensure full cost recovery. The proposed tariff increase for electricity will be at 12.20% which is in line with the approved Nersa guideline. The municipality will continue implementing the winter, summer tariff as well as IBT during the 2015/16 financial year as well as the outer years.

The municipality however still experience challenges in performing a fully cost reflective study on other tariffs. Therefore in considering the drafting of the budget for the 2016/17 financial year our tariffs must be cost reflective notwithstanding the CPIX and regulations by National Treasury. This is in consideration of improving revenue collection of these facilities as well as the quality of services to be provided by the municipality. To this extent all departments of the municipality will be required to evaluate their tariffs so that they are cost reflective and market related.

The graph below reflects the revenue sources of the budgeted statement of financial performance.

Operating Expenditure Framework

FS184 Matjhabeng - Table A4 Budgeted Financial Performance (revenue and expenditure)

Other materials	8									
Contracted services		-	98 413	120 426	8 000	8 000	8 000	89 090	82 819	86 148
Transfers and grants		-	27 271	29 457	31 077	31 077	31 077	32 850	34 788	36 736
Other expenditure	4, 5	-	136 141	178 799	174 220	164 220	164 220	137 920	146 057	154 236
Loss on disposal of PPE										
Total Expenditure		1 296 728	1 979 115	2 185 456	1 985 148	1 975 148	1 975 148	1 922 358	1 997 927	2 052 296

Salaries, wages & related staff cost: The salary figure is **29% (R 596 026 312)** of the total expenditure. Employee related costs is R 569 million and R 26 million for remuneration of councillors. The collective SALGBC agreement has come to an end, salary increases have been factored into this budget at a percentage of approximately 8% for the 2015/16 financial year,

However, not all vacancies have been filled. This has an adverse impact on service delivery. If all positions were to be filled, the salary figure would be closer to 50% of total expenditure. This would clearly be unaffordable to the municipality. However, there are critical positions that would have to be filled. Provision is made for an 7% salary increase and then only emergency vacancies are budgeted for.

Bulk purchases: The supply of bulk services makes **30% (R 617 809 915)** of the total budget. Bulk purchases are directly informed by the purchase of electricity from Eskom and Sedibeng Water. Bulk services suppliers Eskom and Sedibeng will increase their tariffs with 14.24% and 8.3% respectively. These increases were incorporated in the projections for bulk services expenditure.

Repairs & maintenance: The municipality must ensure the health of our asset base by increasing spending on repairs and maintenance. Repairs and Maintenance relates to service backlogs and upgrading of infrastructure **10.63 %** of total expenditure has been allocated to repair and maintenance.

Depreciation and Asset Impairment: The municipality adopted the amendments of GRAP 17 for the first time in the 2012 annual financial statements. The provision for depreciation and asset impairment has been informed by the Municipal Asset Management Policy.

Debt impairment: The provision of debt impairment for the 2015/16 financial year equates to R 87 million based on the 80% collection rate for services and 90% for property rates. While this expenditure is considered non-cash flow item, it informed the total cost associated with rendering the services of the municipality, as well as the municipality's realistically anticipated revenues.

Finance Charges: Finance charges consist of the repayment of interest on outstanding creditors. Finance charges increased from R 95 million to R 168 million in the 2015/16 financial year compared to the 2014/15 adjustment budget. The increase in the finance charges is to cover the interest charged on outstanding bulk service providers (Eskom and Sedibeng). The municipality entered into payment plans with both bulk service providers to settle the arrears.

Contracted Services: This group of expenditure was critically evaluated during the compilation of the 2015/16 budget. In the 2015/16 financial year this group of expenditure totals R 89 million as compared to the audited outcome of R 120 million in the 2013/14 financial year. The SCOA implementation is included in this group of expenditure; another contributing factor to the amount is legal services.

Other Expenditure: Other expenditure consist of various line items relating to the daily operations of the municipality. The other expenditure decreased from R 164 million in the 2014/15 financial year to R 137 million in the 2015/16 financial year. This group of expenditure has also been identified as an area in which cost savings and efficiencies can be achieved as per the financial recovery plan.

The graph below reflects the expenditure components of the budgeted statement of financial performance.

Capital Expenditure

The total Capital Budget Projection for the financial year 2015/2016 is R 146 451 000. The capital budget is funded from a mixture of capital transfers and internally generated funds. The breakdown for is R 116 million and R 30 million. The outer years capital budget is R 121 million and R 129 million respectively.

The table below represents the budgeted capital expenditure by vote, standard classification and funding.

FS184 Matjhabeng - Table A5 Budgeted Capital Expenditure by vote, standard classification and funding

Quality Certificate

I,, Municipal Manager of,

hereby certify that the annual budget and supporting documentation have been prepared in accordance with the Municipal Finance Management Act and the regulations made under the Act, and that the annual budget and supporting documentation are consistent with the Integrated Development Plan of the municipality.

Print name:

Municipal Manager of (FS184)

Signature:

Date:

Print name:

Chief Financial Officer of (FS184)

Signature:

Date:

PART 2 – SUPPORTING DOCUMENTATION

2.1 OVERVIEW OF THE BUDGET PROCESS

This chapter provides an overview of the Budget Process, as well as an overview of the current financial position and the various challenges it faces in the year ahead.

THE BUDGET PROCESS

Budgeting is the central process of prioritising service delivery and the management of functions within the Municipality. That prioritising is perhaps the single most important contribution that Council makes in setting the direction of the organisation and represents a principle management responsibility. The developing of the budget begins with the Integrated Development Plan (IDP), which is a community driven document, where the citizens of Matjhabeng get an opportunity to communicate their needs and desires to their representatives on Council. This document, which is linked to the Budget, forms the 'wish list' for projects, and service delivery items for the Municipality to consider as it develops the Budget. The challenge then facing the Municipality is finding the means to deliver on the 'wish list' to the community while also maintaining existing programs and services while addressing the current service needs to meet increasing demands. The process is managed by a series of transparent meetings and discussions between management, Council, and the community until a final Budget is passed in May/June of each year. That Budget then represents the legal, and directional spending limits for the Municipality for the Budget Year.

The budget cycle is a continuous process of planning, implementing, monitoring and reporting.

The Municipal Finance Management Act (56 of 2003) (MFMA) provides that the involvement of Council in the budgeting and financial management process must be:-

- ✓ Consideration of the views of the local community and any organ of state that made submissions on the tabled budget
- ✓ Give the mayor an opportunity to respond to any submissions and if necessary revise the budget.
- ✓ Consider approval of the budget at least 30 days before the start of the budget year.
- ✓ Approve the budget before the start of the budget year.
- ✓

By focusing on these critical aspects, Councillors will be able to provide appropriate political leadership and direction to the Municipality's operations, oversee the preparation of budgets and oversee the achievement of financial and non-financial objectives expressed in the budget and IDP.

The Budget Process is guided by the following phases:-

- ✓ Revision of the Integrated Development Plan
- ✓ Development of Budget Policies and Guidelines
- ✓ Preparation and submission of departmental budgets
- ✓ Preparation of the draft annual budget
- ✓ Revision of the budget by the Budget Steering Committee

- ✓ Revision of the budget by the Mayoral Committee
- ✓ Community Consultations
- ✓ Budget approval and implementation

2.2 BUDGET RELATED POLICIES

Regulation 7 of the Local Government Municipal Finance Management Act, 2003 Municipal Budget and Reporting regulations states that the municipal manager of a municipality must prepare, or take all reasonable steps to ensure the preparation of the budget related policies of the municipality or any necessary amendments to such policies, in accordance with the legislation applicable to those policies for tabling in the municipal council by the applicable deadline specified by the mayor in terms of section 21 (1)(b) of the Act.

The budget-related policies are as follow:

1. Indigent Policy
2. Credit Control and Debt Collection Policy
3. Municipal Property Rates Policy
4. Supply Chain Management Policy
5. Asset Management Policy
6. Cash Management and Investment Policy
7. Budget Policy
8. Subsistence and Travelling Policy
9. Petty Cash policy
10. Tariffs Policy

2.3 OVERVIEW OF THE BUDGET ASSUMPTIONS

The municipal budget was based on the following assumptions:

- ✚ CPIX of 4.80% (MFMA Circular 75 – Budget Review 2015)
- ✚ Increase in Sedibeng Water tariff 8.3%
- ✚ Eskom tariff approximately 14.24%
- ✚ Salary increase approximately 8%
