- b) Training needs should be aligned to organisation objectives and the individual's specific job (objectives and competencies) and secondly focused on individual career needs; however this needs to be position related.
- c) Next the training needs to be prioritised (1 to 2), since it may not be possible to address all the identified training needs within a specific financial year. Training needs to be addressed in a phased and prioritised basis.
- d) Consideration must be given to the expected outcomes, column 2; so that once the intervention is completed the impact can be measured against the relevant indicators.
- e) An appropriate training intervention should be identified and the outcome to be achieved but with due regard to cost effectiveness. These should be listed in column 3.
- f) Guidelines regarding the number of training days per employee and the nominations of employees: an employee should on average have at least five (5) days per financial year and not unnecessarily withdrawn from training interventions.
